NATIONS FOR HEALTH

United States Invited to Join
World Exposition.

SPECIAL COMMISSIONER HERE

Herr Emil A. Lingner Says Saxony
King and Emperor Wilhelm Are
Back of Hygienic Show Plans that
Will Collect Scientists from All
Countries Next Year at Dresden.

Health promoters, backed by the King
of Saxony and the Imperial German gov-
ernment, have decided on an interna-
tional hygienic exposition to be held at
Dresden next year, from May until Oc-
tober.

It is for the purpose of calling the
attention of the American government
and the medical fraternity of this coun-
try to this event and extending an in-
vitation to them that Herr Emil A. Lin-
gner, royal commissioner of the proposed
exhibition, has come to Washington. He
is at the New Willard and has had a
number of conferences with the officials
of the State, War, and Navy depart-
ments.

"This exposition will be the greatest
event of the twentieth century," said
Herr Lingner last night. "It will col-
lect scientists from all parts of the civ-
ilized world."

German Exhibits Numerous.

"Every State of the German empire will
have exhibits, and each will have its own
pavilion. Twenty-five hundred of the most
celebrated medical scientists of Ger-
many have consented to co-operate and
contribute to the success of the enter-
prise. They will be in attendance at the
congress at which papers and treatises
on various subjects will be read by in-
ternational authorities."

The exposition will be held in the Royal
Gardens, which adjoin the royal palace,
and cover 250,000 square meters. Her-
culeus avenue has been designated for
the foreign pavilions.

Speaking of his successful mission to
Japan and other countries, Herr Lingner
said: "I have extended an invitation to
the Mikado's government. The liveliest in-
terest was exhibited in the project, and
the government set aside 400,000 marks to
defray the costs of an exhibit. Japan
will also erect a pavilion, which will con-
tain plastic and practical demonstrations
of researches and studies along specific
lines. I understand the Japanese gov-
ernment also intends sending a man-of-
war to Germany, which is to convey
scientists, surgeons, doctors, and others
interested."

England Much Interested.

"England will be splendidly represent-
ed, and, besides having a pavilion of its
own, will erect one each for East India,
Canada, and South Africa. France will
be represented. The Pasteur Institute
and other scientific institutions will be
exhibited. Russia has set aside 300,000
rubles for the exposition, and insignif-
cant Bulgaria shows its progressiveness
by appropriating 200,000 francs. Austria,
Hungary, Italy, Sweden, Norway, Den-
mark, Belgium, the Netherlands, Turkey,
and, in short, every civilized nation will
be represented by its best known medical
men and will erect their own pavilions."
"This will be the greatest united effort
which was ever made in the history of
the world to benefit humanity without
regard to race, color, nationality, or re-
ligion. It is an entirely philanthropic
enterprise, and even sports will find a
place on the programme of investiga-
tions. I have come here to make Ameri-
cans acquainted with the plans and ask
your participation."

NAVY MECHANICS
PROTEST TO MEYER

Will Push Claims for In-
creases in Wages.

Making a further protest against the
adverse report of the board of labor of
the United States navy yard, which
has denied the mechanics at the Wash-
ington Navy Yard a general increase of
40 cents a day, Columbia Lodge, Inter-
national Association of Machinists, held
a mass meeting yesterday morning at
East Washington Hall and decided to
appeal directly to the Secretary of the
Navy.

A committee of five was named, with
J. W. McConnell as chairman, to place
their claims for an increase before Sec-
retary Meyer. The entire treasury of
the lodge was put at the committee's disposal
to further the movement.

The present scale of wages for the
machinists is as follows: First class,
\$3.76; second class, \$3.52; third class, \$3.28;
fourth class, \$3.04. The demands embrace
a raise of 40 cents in each of these
classes.
